Reflections

Editor's Note:

Melanie Harris Taormina majored in creative writing at Lycoming College, graduating summa cum laude. She shared the Edward J. Gray Prize for highest average in the senior class and took honors in English/creative writing. She is also a member of the Phi Kappa Phi national honor society.

She received an MFA in writing from the University of Pittsburgh and held a number of positions in the Pittsburgh area, including coordinator of writing workshops. Most recently she was Commercial Litigation and Marketing Assistant with the Pittsburgh office of a national law firm. This summer, she returned to Montoursville, where she grew up, and to Lycoming College.

Community collapses time and space.

On many occasions over these past weeks, I've extended a hand by way of re-introduction and been met instead with an embrace. I've been reminded again and again that this is Lycoming's way.

We who know the gift of this community do not encounter each other merely as alumni and students, faculty and staff, administration and parents, but as Bobs and Marys, Toms and Elizabeths, Justins and Michelles. In this community, we are more in the eyes of one another than the roles we fill. We are known as more than voices to speak, arms to lift, minds to instruct, and hands to shake; we are known and remembered, yes, embraced, as whole persons.

In just a short time, I have seen this on the quad, in the passing of sincere greetings, bright Frisbees, and heavy study texts; on campus stages, in passionate theater and fun-loving dance performances, both of which required much serious-minded preparation, sacrifice, and cooperation; at a faculty retirement celebration, where alumni three decades and thousands of miles removed came to offer words of thanks and tribute to their mentor and friend; at the bookstore, where a student calls the cashier by name and asks about her family; at an alumni gathering, where a '70 and an '04 talk together like brothers.

Lycoming is its people. It's us.

In the embrace of this community that closes the spaces between us, bridging

time and distance, we say to one another: You belong; we say: We care.

Homecoming came early for me this year, and I now have the honor and pleasure of living it out each day in this office, where I work at the best job in the world: getting to know all of you.

I hope you also celebrate your place in this community that is ours. As I and many others around this vibrant and beautiful campus plan for our collective Homecoming this fall, I hope you will engage more fully or rediscover with delight your Lycoming connections. Check out our website (www.lycoming.edu/alumni), send us an e-mail to tell us what's new with you (alumni@lycoming.edu), call your old roommate, come to campus and say hi to your favorite professor, help

coordinate an alumni event in your area, organize a reunion gathering for your class . . . Or just join us this October to celebrate a school and its people most worthy of coming home to.

We'll be waiting for you with open arms.

The Mary Lindsay Welch

HONORS HALL

The Performance Hall seats 120 people on two different levels. The interior architectural elements, although new, have the feeling of a 19th century design.

As Dr. James E. Douthat, President of the College, and **Dan Fultz '57** (then Treasurer of the College) walked through it, they saw restoration and revival into a very special place.

The building has had an interesting history. Built in 1884 as a hall for the German Turn-Verein social club, it was later used as a church for Faith Tabernacle congregation before housing three different auto parts stores and a sport den.

In 2003, a gift from Dr. and Mrs. Marshall Welch helped the College restore the brick exterior and the two-story cathedral-style windows. Interestingly, Mary Welch had noted the nice lines of the building several years before.

During the next year, the College undertook the major renovations of the interior necessary to make it a functional space for the College.

It only seemed fitting that this historic building incorporate some of the College's own special history. Hence, there are architectural elements from Old Main and Bradley Hall as part of the interior design.

The two terra-cotta medallions of Beethoven and Mozart were originally in Bradley Hall which was torn down in the late-1970s. The medallions have been placed in the stage area of the Performance Hall.

It was an ugly duckling. When the College purchased the property at the southeast corner of the campus in 1999, it was with the intention of turning the real estate into a parking lot. The old brick monster was boarded up; its interior reeking of dust and mice residue from the auto parts store that it had recently housed. Yet, the construction was solid – very solid as 19th-century brick can be. It was the demolition company that urged the College to take a closer look.

The Honors Hall will be open for the 2005-2006 academic year. In addition to a multi-purpose performance hall, it houses a Meditation Chapel, offices for the Honors Program, Campus Ministry and Community Service, as well as a kitchen-equipped lounge. It is fully handicapped accessible by elevator.

A gift from David '64
and Rachel Jackson

This window was originally in Old Main and was given in Memory of C. Luther Culler who attended Dickinson Seminary from 1874-1876. When Clarke Chapel was built in 1939, the Chapel in Old Main was converted to the Dean's Office, and the stained glass window was walled in and forgotten. When Old Main was demolished in 1968, the window was discovered, placed in a frame and kept in the back foyer of Clarke Chapel, awaiting a better place. That place has been found as part of the Meditation Chapel. It has now been lighted and installed in the back wall of the Chapel, thanks to the generosity of an alumnus.

Students entering Lycoming College's Sykes Gates at Freshman Convocation hope to be prepared for the world that awaits them after graduation, one that is increasingly global. This expectation certainly contributed to the College's decision in 1992 during a major curriculum review to make the study of a foreign language mandatory. That that decision occurred at a time when many colleges were diluting graduation requirements testifies to the special strengths and vision of Lycoming's faculty and administration.

Since the early 1990s Foreign Languages has been one of the fastest growing departments at Lycoming. "The explosion in the study of Spanish nation-wide was experienced here," said Dr. Amy Cartal-Falk '74, who studied French and Spanish as a student at Lycoming and returned to join the faculty in 1991 to teach both languages. In addition, in the last five years there has been renewed interest in French and German, and both have experienced significant growth. In short, three healthy programs attest to a vibrant department.

History

The study of languages at Lycoming dates back to the time when Lycoming College was known as the Williamsport Dickinson Seminary. Of the three languages offered by today's Department of Foreign Languages and Literatures, German has been taught at Lycoming since 1847, except for a brief break between the end of World War I and 1928. French has been taught continuously since 1848, and Spanish was added to the curriculum in 1919. Although the study of languages has been a part of the curriculum since the

1840s, the Department of Foreign Languages and Literatures was not established until 1963. By the mid 1960s, students were required to take distribution credit in either a foreign language or in mathematics.

As mentioned previously, the distribution requirement changed significantly in 1992 when all students were required to take a foreign language. Dr. Barbara Buedel, who has taught in the Spanish program at Lycoming since 1989, has witnessed tremendous changes and growth. In 1989 there was only one full-time Spanish professor and

two part-time adjuncts.

Today in Spanish there are five full-time positions: Dr. Buedel and Dr. Sandra Kingery hold tenured positions; Dr. Alvaro Bernal holds a three-year visiting position and Ms. Lisa Mody McNeerney and Ms. Andrea Tira are full-time visiting instructors. Dr. Garrett Heysel, currently chair of the department, and Dr. Amy Cartal-Falk lead the French program although Dr. Cartal-Falk teaches Spanish as well. Mr. Len Cagle will be joining the department full-time in the fall of 2005 to direct the German program; he is currently at Brown University where he will defend his Ph.D. thesis this summer.

Growth in faculty positions would not have occurred had there not been a significant increase in the number of majors and minors. For example, in the early 1990s there were 3 majors in Spanish, 3 majors in French, and 2 in German. Today there are 30 Spanish majors, 13 French majors, and 6 German majors as well as 26 Spanish minors, 3 French minors, and 3 German minors. According to Dr. Cartal-Falk, current excitement in the department is due in part to increased interaction between faculty and students.

Dr. Buedel attributes the dramatic increase in language majors and minors to a number of factors including the language requirement and the success and excitement students enjoy in their classes. "Not many of our students come to Lycoming intending to major in a language," said Dr. Buedel, "but they become interested in doing so after a successful experience in

Dr. Buedel, who has been on the College's faculty since 1989, has seen many changes in the Department in the last 15 years.

completing their distribution requirement and after learning that at Lycoming it is feasible to complete two majors." Dr. Sandra Kingery holds that "the increase in language interest corresponds in part to the students' growing awareness of a more global world in which diversity is valued." She concurs with Dr. Cartal-Falk who explains that "expanding the curriculum to include popular and non-canonical literature has promoted student appreciation of cultural diversity."

Dr. Garrett Heysel attributes the Junior/Senior Colloquium with strengthening the major requirements because "it promotes independent student research while also encouraging students to make connections with previous course work. In addition, in bringing together majors from all three language programs, the capstone experience encourages a strong sense of community within the department." When asked for a capsule summary of changes in the department since she began teaching at

Lycoming, Dr. Buedel did not hesitate: "Students in our department have become stronger academically as we professors have refined our course offerings and raised our expectations."

Integrating Culture

A significant change in the department curriculum is a greater focus on the teaching of culture in the language and literature classes. In fact, today there is a cultural component in every class and at every level of study in part due to innovations in foreign language pedagogy resulting in greater integration of culture in textbooks and technology. Other factors that have promoted the study of culture are (1) native speakers, (2) extracurricular activities, and (3) study abroad.

Native Speakers

A second key improvement in the department comes in the form of the Foreign Language Teaching Assistant Program. This program brings to the college Teaching Assistants (TAs) from places such as

Dr. Garrett Heysel combined language, culture and cooking in a special May Term course in France.

Argentina, Colombia, France, Germany, Mexico and Spain in order to provide opportunities for students to practice their language skills in small groups with native speakers. "The TAs have played an important role in encouraging our students to continue their studies," said Dr. Cartal-Falk. "Benjamin LaCroix, Noelia Huertas, and

Thomas Noack, our teaching assistants for this year, have been particularly effective in sharing their culture and experience with our students. The TA program brings the study of language to students in a way that classroom experiences cannot."

Extracurricular Activities

One of the key factors in encouraging the cultural aspects of

language study occurs outside of the classroom. The French club, known as club Franco, and the Spanish club are active and continue to grow; the German club is being re-established. A department-wide film series screens contemporary international cinema on a weekly basis.

"Extracurricular activities offered by the department are effective in sparking student interest in the program," says Dr. Cartal-Falk. "In the French club we play *boules* (bocce ball), we enjoy French food both on campus and at Le Jeune Chef, and in past years, students shared their own experiences in Francophone countries such as Belgium, Switzerland, and Vietnam." The French program also sponsors an annual spring trip to Montreal to visit museums, tour Old Montreal, and practice French. Members of the

Paul MacKenzie Legacy

As a tribute to Dr. MacKenzie's remarkable curiosity and wit, his ability to encourage and inspire the same passion for discovery in his students, and his outstanding direction of the German program at Lycoming College for 33 years, this scholarship was established in 2003 by Paul's students, friends and colleagues. When fully endowed, the College will award the scholarship to a deserving German major returning from his or her study abroad experience in a German-speaking country. If you would like to honor Dr. MacKenzie by contributing to this fund, contact the Lycoming College Development Office 570-321-4036.

The Lowry Scholarship

A study abroad experience is invaluable in learning the language and culture of another country. Yet many of Lycoming's students face economic hardship as they endeavor to afford this experience. The Lowry Scholarship was established in 2000 for the purpose of providing financial aid to students with genuine need who wish to study abroad. The College would welcome additional scholarships to help more students take advantage of a study abroad opportunity. Contact the Lycoming College Development Office 570-321-4036

Dr. Sandra Kingery spent a summer in Cuba studying language and culture.

Study Abroad Opportunities

Even before a curricular change (2004) which now requires students pursuing teacher certification in French, German or Spanish to study abroad, the number of majors and minors participating in international education had been steadily increasing. In the last ten years, 42 language students have studied abroad in the summer and 45 have spent a semester or longer abroad.

According to Dr. Buedel, who also serves as Coordinator of Study Abroad, "international education gives students both a linguistic and cultural immersion that is impossible if they study only at Lycoming. Students who study abroad become stronger students, and we currently have language majors studying in Ecuador, France, Germany, Hungary, and Spain."

Says Dr. Cartal-Falk: "I believe students value the lessons and experiences that living in another culture provides. It may be a cliché, but it is true that study abroad makes students better world citizens. Study abroad is a life-enriching experience for our students."

Dr. Cartal-Falk has led several May Term courses in

France. Dr. Heyssel and a colleague from Bucknell University co-directed a May Term in 2001 entitled "Culture through Cuisine," a course that combined language, culture and cooking. Prof. Cagle has studied in Germany and taught English in Japan. He advocates the importance of international education and states that one of his goals is "to establish a Lycoming affiliation in Germany."

Language immersion is an important aspect in the work of effective foreign language educators, and professors usually spend time abroad during the summer break and sabbaticals. Dr. Kingery, for example, has traveled extensively throughout eight different Latin American countries, including a hitchhiking trip in Cuba, and

she recently spent several months in Spain during a sabbatical.

Summary

Dr. Buedel attributes much of the department's expansion to a passion for language and culture study shared by students and professors. "Today we have more majors, more minors, and more students studying abroad. There is great enthusiasm for language study at Lycoming; it is contagious in the classrooms, and it is visible in the hallways of our department. Our teachers work incredibly well together, and students respond to our close sense of community." It is this passion that has fostered the record growth in the department in the last 15 years and that forecasts a healthy future.

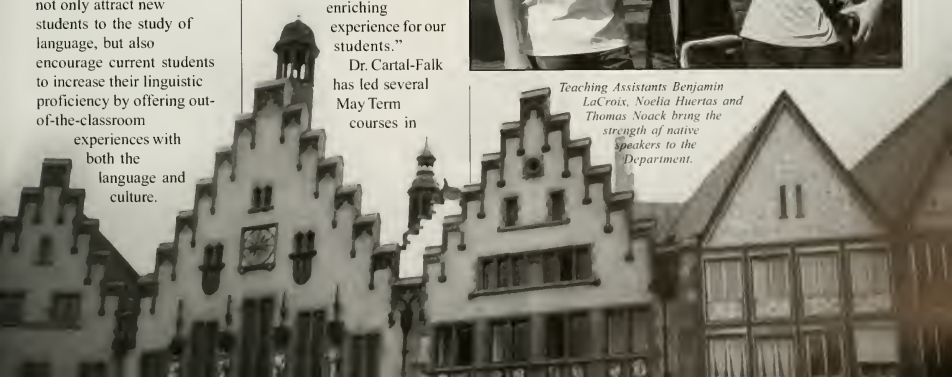

Teaching Assistants Benjamin LaCroix, Noelia Huertas and Thomas Noack bring the strength of native speakers to the Department.

Spanish club host salsa dance parties for the campus, offer a tapas night, and travel to New York to attend theatre performances in Spanish and visit the Museo del Barrio. Advanced Spanish students also lead after-school enrichment programs in two elementary schools. Plans for the German club include a weekly *stammtisch* (coffee hour), a practice which in recent years has been very successful in reaching beyond the borders of the department to include German-speaking faculty from other disciplines.

According to Dr. Cartal-Falk, all of these activities not only attract new students to the study of language, but also encourage current students to increase their linguistic proficiency by offering out-of-the-classroom

experiences with both the language and culture.

Most students don't get the opportunity to be a student, a full time intern, and an international sightseer all in one semester, but that is exactly what Jason Purdy '05, a Spanish major from Lycoming College, did during the spring semester of his junior year. Jason traveled to Chile in January and spent six months in South America before returning to the United States in June.

While Lycoming College has many study-abroad opportunities, there were no set programs in Chile when Jason made his decision to study in there.

"I studied in a summer program in Spain in 2002 and knew I wanted to study abroad again," said Jason, "but I wanted a larger perspective on Spanish-speaking cultures. Chile is one of the safest of the Latin American countries—similar to American culture, but unique at the same time."

During his first month in Chile, Jason lived in the capital city of Santiago, where he studied at Tandem, an international language school. Jason found Santiago to be pleasant and beautiful in its own way—particularly because the city is surrounded and "bowled" in by large mountains.

"I liked to walk around and look at Santiago's architecture. You could walk down a street that had a very European style and turn the corner, and it would seem like you were in a different city."

After completing his month of studies, Jason began three weeks of travel through the south of Chile with a German student, Andy.

By Laura Charnick '05

One of their first stops was the city of Villarrica, located in the lake region of southern Chile, an area known for the multitude of volcanoes that cover the region. There he joined an expedition to hike a smoking volcano.

"It got really difficult as you got closer to the summit of the volcano," Jason said. "We were gasping for air because of our exertion and the altitude and the sulfur fumes."

Although it took Jason and his group nearly five hours to hike to the top of the volcano, it only took a half hour for them to make their descent.

"That was the best part," said Jason. "To go back down, we just sat in the snow and tumbled and slid the whole way down."

Jason and Andy visited different areas of the lake region, staying in hostels. They visited San Martin de los Andes and Bariloche, both in Argentina. There he discovered that, although they needed to be back in Chile in two days to catch a

flight to the southern tip of Chile, the first available bus back to Chile was in four days.

"We ended up [taking] a series of boats and buses across the Andes to Chile. The unplanned trip turned out to be the best mistake I made," said Jason. "The trip was absolutely amazing. We drove on roads that passed turquoise blue, green, and white lakes (the colors were formed from mineral run off into the lakes)."

Back in Chile, Jason flew to Punta Arenas, close to the tip of South America and the Strait of Magellan. They visited Torres Del Paine, the most famous national park in southern Chile, and spent four days camping in the park.

"Those four days were the hardest. The trails were steep and we had to carry everything—food, water, tents, and cloths—on our backs. We ran out of water on the first day and ended up drinking from streams. The water tasted like sugar water because of the mineral runoff from the glaciers. On

the last night, it rained. We awoke cold and wet, with mice all over the place." Jason said. He spent the next few days recuperating in Punta Arenas, where there "on a chilly day, we made chili in Chile," Jason said, laughing.

Jason spent the rest of his time in Chile working as an intern at an archaeology museum in Viña del Mar. The museum concentrates on the natural history of Chile, including wild life and the indigenous culture. He helped to organize the archaeology reserves and prepare exhibitions, and from time to time, he translated the museum tours for English-speaking groups. He became very close to his eight co-workers who introduced him to the typical Chilean asados, or indoor barbecues. He, in turn, introduced them to s'mores.

In the final weeks of his stay, Jason visited Buenos Aires, Argentina.

"I was delighted to listen to the people of Buenos Aires speak," Jason said. "It sounded like they were singing. But one of my favorite memories was going to see the movie *Day After Tomorrow* and listening to the audience cheer at the part of the movie where the U.S. forgave all debt to Latin America."

Note: Jason returned to the United States in June of 2004, graduated in May of 2005, and will leave in August for Latin America. During his senior year, he received a Rotary Foundation's Ambassadorial Scholarship which will fully fund a year of study (2005-2006) at the Universidad de San Francisco in Quito, Ecuador.

Steven Hawley '06 was one of 38 students nationwide to be selected for a \$1,000 Phi Kappa Phi Honor Society study abroad grant. Steve, a biology pre-med major and Spanish minor, will spend four weeks in Ecuador taking Spanish language classes and doing volunteer work at a hospital in the city of Cuenca. Steve was the only recipient from a college or university in Pennsylvania to win this award.

Besides holding four Lycoming College swimming records and two NCAA national cuts, Steve is involved in the pre-health society, the chemistry club, Peer Athlete Leaders (PAL), the pre-health society and served as a student orientation leader. In addition to Phi Kappa Phi, an interdisciplinary honor society, Steve is also a member of the biology honor society Tri-Beta. Steve has also recorded over 100 hours of community service at Harrisburg Hospital in Harrisburg, Pennsylvania.

Steven Hawley '06 Receives Study Abroad Grant

A Month in Spain

BY LAURA CHARNICK '05

Last summer, I had the wonderful opportunity to travel to Spain and take classes for four weeks through the study abroad May-term program. Although my surface goals for the summer were to complete my requirements for a minor and improve my Spanish, I also realized that I was being given the opportunity to travel and learn as very few students ever truly experience.

From May 10th until June 4th, I lived and studied in Salamanca, a beautiful small city in the Castilla y León region of Spain, about three hours (by bus) from Madrid. I stayed with a host family provided by the school, Sampere, and from the moment I met Hermalinda, I was welcomed into her home. The first few days of my experience were confusing, as I adjusted to the language and tried to learn the city. After surviving that first week of total immersion, I believe I can say that it is impossible to learn a language completely without some sort of immersion experience and that until I arrived in Spain, I never realized how little Spanish I knew! But with the help of the teachers and through speaking Spanish with the other students at the school, students from Japan, Sweden, Switzerland, France, and Germany, my confidence grew exponentially.

When not in the classroom, I was excited to explore the city of Salamanca itself—a city that I consider to be one of the most beautiful I have ever seen. The city offered a tremendous historical district complete with cathedrals, gardens, shops, cafes, and of course, the heart of the Spanish city, the Plaza Mayor. I found myself equally enthralled by the boisterous nightlife offered by the Salamantinos, and I enjoyed going to discothèques, bars, or just out to coffee with my fellow students as well as with Isabel, a former Lycoming College Spanish Teaching Assistant who lives in Salamanca.

Spanish life, of course, extends beyond Salamanca's borders. On weekends, I traveled to Portugal, to the cities of León and Astorga in Northern Spain, to the Royal Palace at El Escorial, and to Francisco Franco's grave and the Basilica in La Valle de los Caidos.

My time in Salamanca passed too quickly, but before I came back to the United States, I explored Spain's capital city. While in Madrid, I visited museums, the royal palace, the famous Puerto del Sol, and the bullfighting arena. What I had not realized until I arrived in Madrid was just how comfortable I had become with speaking Spanish. When I think of my first and last days in Spain, the difference in my language skills and my independence was incredible and immeasurable.

My return to the United States was bitter sweet. I knew that I had just finished one of the most defining months of my life. Now when anyone asks me how my study abroad experience was, I sum it up for them in one word: amazing.

"Americanos: Latino Life in the United States"

The spring symposium looked at Latino Life in the United States and brought to campus three outstanding speakers and an artist.

The month-long series of events included journalist and commentator **Richard Rodríguez**, as keynoter. Rodríguez, the author of *Brown*, spoke to a packed

Clarke Chapel on the Latinization of American culture. He is a frequent essayist on the "The NewsHour with Jim Lehrer" (PBS).

Nestor Hernandez, an Afro-Cuban artist, was an artist-in-residence at the College for a week and his photography exhibition, "Cuba Reflections: A Photographic Journey," was in the gallery during the month of the Symposium.

Elva Treviño Hart, author of *The Barefoot Heart: Story of a Migrant Child*, spoke about her life as a child of migrant workers and her subsequent success.

Alicia Partnoy (right) autographs her book.

Guerrilla Girls on Tour brought a funny look at feminism to campus.

Alicia Partnoy, a poet and political refugee from Argentina, discussed her imprisonment during the turbulent "Dirty War" in Argentina from 1976-1983 and her life in the United States as political refugee.

Guerrilla Girls on Tour!

On April 5, the Women Studies Program brought to campus *Guerrilla Girls on Tour*, a talented two-some who performed *Feminists are Funny*, a 70-minute energetic romp through "herstory," with great one-liners on politics, the performing arts and the media, and the history of some of the funniest female activists and their accomplishments.

Bright Spots

Nicole Gugliucci '05, an astronomy/physics major was awarded a \$5,000 Phi Kappa Phi Fellowship for graduate study, one of just 60 students nationwide to receive a fellowship from the oldest and largest interdisciplinary honor society. She will enter the University of Virginia doctorate program in astronomy.

Jason Purdy '05, a Spanish major, was awarded an Ambassadorial Scholarship for 2005-06 from the Trustees of the Rotary Foundation. He will use the scholarship to study at Universidad San Francisco de Quito in Quito, Ecuador. Purdy was one of 1,100 students worldwide chosen to study in 70 different countries. (See page 10 for more about Jason)

Steven Hawley '05 was one of 38 students nationwide to be selected for a \$1,000 Phi Kappa Phi honor society study abroad grant. Steve, a biology pre-med major and Spanish minor, will spend four weeks in Ecuador taking Spanish language classes and doing volunteer work at a hospital in the city of Cuenca. Steve is the only recipient from a college or

From the Archives:

AN Indian FALE

An extended Snyder family came back to the campus to visit an old College friend, a 19th-century "cigar store" Indian carved out of wood. The Indian was given to the College by Janie Snyder's dad, Darwin Donachy 1861. He was a collector of Cigar Store Indians and the family has three other Indians.

According to Jack Buckle, Dean Emeritus of Students, who was a friend of Darwin Donachy (the donor), the Indian was to be a trophy to be traded back and forth between the winner of the football game between the Lycoming Warriors & the Juniata Indians.

It seems the first year that this was to occur one of the Lycoming players had transferred here from Juniata. There were taunts and hard feelings throughout the game and a riot occurred. The two schools suspended play for some years after that and the Indians never left Lycoming.

The Indian stood for a time in Welch then went to the gym where it was the only thing a fixture outside the office of Administration & Good Government. When the archives moved into its new quarters in the basement of the Academic Center, the Indian was moved there.

Franz's Retirement Brings Dozens of Alumni to Campus

More than two dozen alumni "stopped in" for the final biology and chemistry colloquium of the year. The event turned out to be a surprise retirement fest, complete with dinner, for Dr. David Franz. Steve Stout '72

acted as master of ceremonies. One surprise was the announcement that the Chemistry Instrumentation Endowed Fund has been renamed the Professor David A. Franz Chemistry Instrumentation Endowed Fund. This endowment provides a steady stream of funds for purchase of instrumentation for the Chemistry Department. The Fund was initially endowed through a \$50,000 matching challenge to Chemistry alumni. Stout announced

Team Time Out May 21 Huge Success!

It gets better every year! The Baltimore/Washington and Greater Philadelphia Chapters of the Alumni Association enjoyed a sell-out event at this year's 3rd Annual Team Timeout at Camden Yards. Alumni from across six decades came together for a lively pre-game picnic and spirited support of their favorite team. Orioles fans left happy; Phillies fans left

disappointed. But everyone was glad to be a part of Team Lyco! Special thanks to Stephen Simchak '99 for organizing this event.

FACULTY & STAFF

The Arts

Jerry D. Allen (Assoc. Prof. /Theatre) designed costumes for two shows: "All in the Timing" and "Crimes of the Heart," both produced at Keuka College.

Lynn Estomin (Assoc. Prof. /Art) had screenings of her documentary "No Justice, No Peace" at the OVNI Video Festival, Centre de Cultural Contemporania de Barcelona, Spain, and at the Berkeley Film & Video Festival where it won an

Award of Excellence. It also was nationally televised on Free Speech TV.

Estomin's website "Freedom Bound" won a Golden Web Award from the International Association of Web Masters & Designers and an Award of Excellence/5 Maple Leaves, at the Canadian web awards. It was also featured in the "Issues" section of the December 2004 *Journal of American History*, screened at SIGGRAPH 2004, in Los Angeles, Calif., and presented at Women in Media Symposium, at Penn State-Harrisburg.

Her photography was included in the national juried exhibition, "Looking for America" at the Washington Gallery of Photography. She had a solo exhibition at Penn State - Harrisburg in February 2005, and won a cash award at the Art Council's Regional Art Exhibition in July. Pennsylvania College of Technology purchased two of her pieces from that show for its Art on Campus Permanent Collection. Estomin also exhibited at the Herdic House, Coffee and Tea Room, Vanderlin

Gallery, and the Thomas T. Taber Museum in Williamsport.

In addition, Estomin received an invitation for representation by New York City Agora Gallery, located on Broadway in Soho.

Dr. Amy Golahny (Prof. / Art History) had an article, "George Loring Brown's painting 'Sunset: Bay of Naples,'" in the journal *19th-Century: The Magazine of the Victorian Society in America*.

Roger Shipley (Prof. /Art) had pictures of his bronze and acrylic sculptures published in *Beginning Sculpture* by Davis Publications and *The Sculpture Reference* by Sculpture Books Publishing. He had solo exhibitions at the Faustina Gallery, Lewisburg, Pa., and at the Herdic House in Williamsport. He also exhibited work at Lewisburg Arts Council's "Annual Art Exhibition" and the Susquehanna Festival of the Arts' "Regional Art Exhibition," Williamsport, Pa.

Stafford Smith (Visiting Asst. Prof. /Art) had solo shows of his photography at the Experimental Gallery, Cornell University (May

2004) and at Gallery 152 in Williamsport this past December. His work was in three juried shows: Studio2Gallery, Austin, Texas, June 2004; Afif Gallery, Philadelphia, in November; and the Allentown Art Museum, in March.

Dr. N.J. Stanley (Asst. Prof. /Theatre) presented a paper entitled "Neil LaBute's Theatre of Cruelty" at the Second International Conference on American Theatre: The Plays and the Players.

Dr. Fred Thayer (Prof. /Music) has had two commissioned works (composed during his 2004 sabbatical) receive premiere performances. *Wie schon leuchtet der Morgenstern* (How Lovely Shines the Morning Star) was performed by the Susquehanna Chorale in Hershey, Pa., in December 2004. *In Time of Silver Rain* (text by Langston Hughes) was performed by Syracuse University's Hendricks Chapel Choir in May and repeated in their five concerts in China the same month.

Howard Tran (Asst. Prof. / Art) has a solo exhibition of mixed media, "To Tien" at University Gallery, Mansfield University this past January.

Prof. Lynn Estomin

Prof. Hungerford

Prof. Peluso

Dr. Rachael Hungerford and Dr. Eileen Peluso received Lycoming's top teaching awards at the College's Honors Convocation on April 10.

Dr. Rachael Hungerford, assistant professor of education, received the Constance Cupp Plankinborn Alumni Teaching Award, which is given to a senior faculty member. She joined the faculty in 1989 and teaches courses in elementary education and women's studies. Her area of specialty is children's literature. She is co-editor of the book *Jouryming: Children Responding to Literature*, and has written a number of professional articles.

Dr. Eileen Peluso, associate professor of mathematical sciences, received the Junior Faculty Teaching Award for teaching excellence by a faculty member who has been on the Lycoming College faculty fewer than 10 years. Dr. Peluso joined the Lycoming faculty in 1998 after a career as a programmer analyst and a research engineer. She teaches computer science and mathematics and has had a number of professional papers published.

His work was also exhibited in Out of the Blue Gallery, Lewisburg; "19th Annual Florida International Competition," Museum of Fine Art, Florida State University, in Tallahassee; "Go Figure," National Juried Exhibition, MFA Circle Gallery, in Annapolis; Artists Council "35th Annual National Juried Exhibition," Palm Springs Desert Museum, Palm Springs, Calif.; "38th Annual National Drawing and Sculpture Show," Del Mar College, Texas, for which he won a cash award; and at "Faculty Show," Vanderlin Gallery, in Williamsport.

John D. Cruickshank took the basketball skills he perfected at Lycoming and won the Manatee's free-throw shooting competition for senior athletes this year—like he has four out of the past five years! This year he nailed 22 of 30 shots to tie another player; then won the playoff by hitting five straight. In April 2005, he won the free-throw competition at the Good Life Games in Pinellas County by making a record 29 out of 30 shots. Cruickshank has had two hip and two knee replacements and is an avid racquetball and softball player. He won the doubles in the racquetball state finals in Orlando, Florida, in December and will represent

the state of Florida at the National Senior Games.

Hello former classmates! Hoping you are all well and happy, and enjoying life as a "50-something." My husband, Tom Beamer, and I invite you to mark your calendars and join us for Homecoming this year. If you haven't been back in a while (or at all) this is the year to return. You will be amazed at the changes to our beautiful campus, and the growth in the city of Williamsport. The Holiday Inn, Hampton Inn or the Radisson are convenient to the campus, and offer reasonable rates. (Those of you bringing children may prefer the Radisson, which has an indoor pool and restaurant on premises.) There are many other hotel options. Surf the internet for one that suits your needs. For all of you "empty nesters" - come to Williamsport and enjoy a

weekend away. Feel free to email me if you have any questions. Please contact those friends from Lyco that you always meant to stay in touch with and get them to come back too. Let's have a big PAR-TAY! Informal gathering Friday night at the Radisson lounge.

Give
Stock to Lycoming

American taxpayers can make charitable gifts of stocks and bypass capital gains taxes, in effect using paper profits to help reduce federal and, perhaps, state income taxes. Plus the charitable gift is eligible for an income tax deduction at its fair market value at the time it is given as a gift.

Many investors see a charitable gift of stocks as a way to divest themselves of unwanted stock at minimal cost to themselves—and benefit a worthy organization.

Please note: stock certificates must be turned over to the College. Selling the stock first will result in capital gains tax.

For information on electronic transfer of stock, please contact Jennifer Wilson, Director of Development, (570) 321-4036.

Can Impact the Future of Lycoming College

Your participation in the Lycoming Annual Fund - with as little as \$10 - can make a huge difference in Lycoming's future. Because participation rate by alumni in a college's annual fund affects how foundations look at us when we pursue grants.

The percentage of alumni who make a gift to the Annual Fund is one of the factors used by foundations when awarding grant money. In addition, this percentage is also utilized by *U.S. News & World Report* when determining its annual college rankings.
